EDUCATION

2015 - 2018

Universidad de la Punta – San Luis - Argentina

Incomplete studies in Software Development Technology, which provided a solid foundation for my knowledge in languages such as JavaScript, C++, C#, SQL, and others. Proficient in fundamental concepts of these languages.

EXPERIENCE

2015 - 2018

Universidad de la Punta

During my studies, I acquired a solid understanding of programming fundamentals, algorithms, and database management, enabling me to develop simple websites, applications, and databases.

2021 - 2022

Personal Website

After a brief hiatus due to personal reasons, I resumed programming and created a personal website where I regularly update my educational information.

2023

50 mini proyectos

I am currently working on 50 mini projects involving HTML, CSS, and JS in Spanish, which are available on my GitHub repository.

SKILLS

Proactive	Continuous Learning	Availability
Problem Solving	Public Speaking	Punctuality
